

VELUX®

The No Leak Skylight™

The Go Solar Series

Go Solar, Save Big

**GO
SOLAR**

Bringing light to life™

Why skylights?

Daylight

Daylight is powerful. It redesigns the look and feel of our home every hour of every day. Additionally, it balances our Circadian rhythm and improves our overall well-being. When you bring more daylight into your home through skylights, you can decrease your dependency on electricity and give functionality back to your space. We often ask, "Why skylights?" But with the endless reasons to install a skylight, the question becomes more, "Why not skylights?"

Fresh Air

Open your home to crisper, cleaner air and brighter days with VELUX's "Fresh Air" Skylights. Designed to release stale, trapped air from your home while bathing it in rich natural light, our venting skylights reduce your dependency on central air and electricity to freshen and brighten your home.

Go Solar, Save Big

VELUX works to put our most abundant natural resource – light from above – to excellent use by developing environmentally friendly products. And the VELUX Go Solar Initiative is designed to bundle products that reduce energy consumption and actively fine-tune the climate inside your home to create a greener, healthier space. It's time to look up and Go Solar!

Ambient Light

Light reflects off walls and floors to give your space a soft, glowing look and feel.

Ventilation

Opening your skylight helps purify your entire home with fresh air.

Seasonal Automation

Automatically optimize energy performance based on outside conditions.

Privacy

Your skylight looks up, protecting your home's privacy down below.

Lower Electric Bill

Turn off more lights in your home by soaking up free light from above.

Unique Design

Add the finishing touch by pairing your skylight with designer blinds.

Same Great Skylights.

Way More Savings.

Despite our differences, we all share the same home: Planet Earth. At VELUX, we want to ensure the products we offer help reduce our carbon footprint, which is why we designed the Go Solar Initiative.

The VELUX Go Solar Initiative is designed to bundle products that reduce energy consumption and actively fine-tune the climate inside your home as the seasons change. With VELUX Go Solar, you are well on your way to reducing your dependency on electricity by exchanging artificial light for bright, natural light, and in some cases, HVAC for fresh air.

When you join the Go Solar Initiative by purchasing solar-powered products for your home, you are eligible for a 26% Federal Solar Tax Credit on the entire cost of your products and installation.

So, look up and Go Solar!

The Logical Choice

In 2008 and 2009, two acts were signed into law that provided homeowners and businesses with a tax credit on the purchase and installation of renewable technologies. This included products powered by the sun's energy, wind, or geothermal heat, and installed between January 1, 2020 and December 31, 2022.

This opened the door for VELUX to redesign our products so that they not only matched the spirit of the tax credit, but also worked to improve usage of renewable energy.

When you Go Solar and add any solar blind to a fixed or manual skylight, your entire purchase and installation becomes a solar system eligible for a 26% tax credit. And like we say, when you look at the numbers, going solar becomes the logical choice.

Go Solar Cost Savings:

Fixed Skylight Option

Estimated price/savings

\$450	Fixed Skylight & Flashing
+ \$1,500	Installation
\$1,950	Final Cost

\$1,950

Includes fixed skylight, pre-installed solar blind, and a free VELUX ACTIVE with NETATMO Gateway + App¹

\$1,739*

**Go Solar
and save \$200²**

*Based on tax credit eligibility. For more information visit veluxusa.com/go-solar.

¹ VELUX ACTIVE Gateway not included with the Go Solar option for the VELUX Solar Powered "Fresh Air" Skylight.

² Represents average of all fixed skylight sizes. Actual installation costs will vary from these estimates based on common variables in roof construction and shaft construction. Local delivery costs and applicable sales tax not considered for these estimates. These numbers are provided as estimates only.

Meet the Solar Family

The VELUX Solar Powered "Fresh Air" Skylight

The most refreshingly innovative product in the VELUX family, the VELUX Solar Powered "Fresh Air" Skylight is designed to open up your space with natural light and infuse it with fresh air.

The skylight is equipped with a solar panel that captures available daylight (even trace amounts) to recharge its fully-concealed, battery-powered operator and control system. This energy allows the skylight to open and close with a touch of a button, and to automatically close at the first sound of rain.

Remote

The VELUX Manual "Fresh Air" Skylight with Light-Filtering Solar Blind

The VELUX Manual "Fresh Air" Skylight enables any home to embrace the best of what nature has to offer. Opening for maximum fresh air, this venting skylight contributes to proper home balance and comfort level by allowing stale, humid air to be released. The light-filtering solar blind attached to the skylight can be powered with a touch of a button for optimal light control and programmed set to automatically position itself throughout the day depending on the seasons.

VELUX ACTIVE with NETATMO Gateway

The VELUX Fixed Skylight with Light-Filtering Solar Blind

The VELUX Fixed Skylight is perfect for visually expanding your home with light and sky views. It provides an economical choice in creating a spacious room filled with natural light. When fitted with a light-filtering solar blind, the fixed skylight provides ample natural light with optimal light control and can be programmed to set different blind positions depending on seasonal changes.

VELUX ACTIVE with NETATMO Gateway

The VELUX Sun Tunnel® with Solar Night Light

This powerful combination of the VELUX Sun Tunnel® and the Solar Night Light provides you with constant free light, day or night. The Sun Tunnel's® unique cylinder shape fits between the beams of your ceiling to allow light to travel from your roof down to the space below uninhibited. And when the sun goes down, the moon-like glow of the Solar Night Light will help guide your way.

Solar Night Light

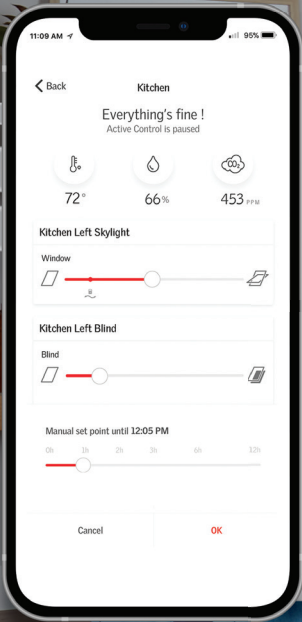

A window to a smarter, healthier home.

VELUX ACTIVE with NETATMO

Whether you're at home or away, VELUX ACTIVE is your home's climate control and monitoring system. Trusted to create a healthier home environment, VELUX ACTIVE's sensor-based controls pair with your smartphone and automatically adjust your skylights and blinds for ideal temperature, air quality, and energy efficiency.

VELUX ACTIVE is ready to start regulating your home's climate and environment and letting your skylight think for itself! Its sensors continuously monitor your home's indoor climate and compare it to your local weather station, so you never use unnecessary energy to keep your home comfortable.

Mobile Control

Climate Sensor

Internet Gateway

Departure Switch

Daily Ventilation
Choose how often your skylight opens during the day to circulate fresh air throughout your home.

Sensor Based Ventilation
Readings from your indoor climate sensors (CO2, humidity, temperature) combined with outdoor conditions will open your skylight if natural ventilation can improve room conditions.

Smart Heat Protection
VELUX blinds operate proactively based on local weather forecast information.

Stay in Control
Operate your VELUX skylights and blinds from your smartphone.

Say the Word
Use voice control assistance to operate your VELUX skylights and blinds.

Easy Departure
Put your VELUX ACTIVE products in safe mode with just one tap.

VELUX ACTIVE
Smart sensor-based operation of your VELUX skylights, and blinds.
with **NETATMO**

Complete light control.

Perfect Solar-Powered Blind Pairing

Finish the look of your space by pairing blinds to your VELUX Solar Powered "Fresh Air" skylights. VELUX offers a wide selection of factory-installed, solar-powered blinds that range from completely darkening an entire room to softly diffusing incoming light, giving you ultimate light control.

Room-darkening, double-pleated blinds

Light-filtering, single-pleated blinds

Bringing light to life™

NOTICE: ALL GLASS MAY BE SUBJECT TO UNEXPECTED AND SPONTANEOUS BREAKAGE in rare circumstances due to imperfections in the glass that are undetectable during the manufacturing and inspection process by the manufacturer of the glass and VELUX.

VELUX offers the choice of laminated or tempered glass skylights. Impact glass and comfortplus glass are all types of laminated glass. Comfort glass is a type of tempered glass. Laminated glass is a combination of two or more glass sheets with one or more interlayers of plastic (PVB) or resin. In case of breakage, the interlayer is designed to hold the fragments together. Tempered glass does not contain an interlayer to hold the fragments together. Instead, tempered glass is designed to break into small, pebble-like pieces. When tempered glass breaks, pieces of glass come loose and may strike an individual.

CONSULT LOCAL REGULATIONS AND/OR BUILDING MATERIAL CONSULTANTS TO DETERMINE WHICH TYPE OF GLASS IS RIGHT FOR YOU OR IF LAMINATED GLASS IS REQUIRED IN YOUR APPLICATION.

VELUX®

The VELUX Group creates better living environments with daylight and fresh air through the roof. The VELUX product program contains a wide range of roof windows and skylights, along with solutions for flat roofs. The Group also supplies many types of decoration and sun screening, roller shutters, installation products, products for remote control for installation in roofs. The VELUX Group, which has manufacturing companies in 11 countries and sales companies in just under 40 countries, represents one of the strongest brands in the global building materials sector and its products are sold in most parts of the world. The VELUX Group has about 10,000 employees and is owned by VKR Holding A/S, a limited company wholly owned by foundations and family. For more details, visit velux.com.
